### Agro-Economic Value

**Field Description:**
- **Climate:**
  - Rainfall: 50-100 cm
  - Temperature: 20-30°C
- **Soil Type:** Light sandy loam
- **Topography:** Flat to slightly undulating
- **Vegetation:**
  - Crops: Wheat, barley, corn, soybeans
  - Pasture: Alfalfa, clover
- **Soil Quality:**
  - Organic Matter: 2-3%
  - pH: 6.5-7.0
- **Water Availability:** Groundwater within 1-2 m

### Economic Value

- **Yield:**
  - Wheat: 4-5 t/ha
  - Barley: 3-4 t/ha
  - Corn: 7-8 t/ha
  - Soybeans: 2-3 t/ha
- **Market Demand:** High demand for grains and livestock products
- **Exports:**
  - Wheat, barley, corn, soybeans
- **Import:**
  - Fertilizers, pesticides, seeds
- **Infrastructure:**
  - Road network: Good
  - Water supply: Adequate
  - Agriculture facilities: Good
- **Labor:**
  - Seasonal
  - Local availability
